Dear sir/madam

I am an experienced IT professional who thinks I can contribute significantly to this role for the Abaarso Network. I have more than seven and a half years of experience with Software Development and IT in general. I genuinely believe in supporting the academic, intellectual, and character development of promising Somaliland boys and girls so they can effectively and morally advance their country as tomorrow's leaders.

Abaarso strives to create great people, not simply great students. It's focus on ethical development ("Integrity"), determination ("Tenacity"), and rigorous independent thought ("Reasoning"), equips students with the characteristics they will need to succeed in international environments, and ultimately, as exemplary leaders of the Somaliland People, so I'm very keen on working this type of environment

I have the vital qualifications, experience, computation skills, interest, and attitude to be part of this network, I would greatly appreciate your positive response.

Thanks a lot.
