Dear sir/madam

I, Abdinajah Kaydsane, the person listed below, respectfully ask that the honorable organization consider me for the Woreda Facilitator position, which is currently vacant on the board of office and is based on Shilabo Woredas of the Korahay Zone in the Somali region. I am an experienced professional who thinks I can contribute significantly to this role for the organization.

I have more than seven and a half years of experience with community mobilization, mother and child health in nutrition and community setup, woreda field monitoring, and capacity building projects like this one. I have also given training, used on-the-job training, and supervised health workers and health extensions at the health center and health posts level to ensure the project was carried out correctly.

My experience has taught me how to establish and strengthen relationships with the government and society. I have outstanding time management, teamwork, leadership, and report writing skills, and I am dedicated to executing health and nutrition programs.

I therefore hope you will kindly consider my application and authorize me to be considered as one of the candidates for this position, as I have the vital qualifications, experience, computation skills, interest, and attitude to handle this particular job successfully that was advertised on Bureau. I would greatly appreciate your positive response.

Thanks a lot.
